

The Face of
**LIVABLE LUXURY
INTERIORS**
LISA TULLAI

For Lisa Tullai, owner of Annapolis Interiors, livable luxury is the cornerstone of every design. She knows exactly how to create beautiful homes that function, nurture, inspire and stand the test of time.

A design experience with Lisa begins with focusing on practical space planning. For this stage she works closely with architects, custom builders and homeowners. With a keen eye for color, texture, scale and form, she then layers in aesthetic elements, interpreting the needs and desires of her clients and infusing their spirit into each space.

Collaboration is key. "If I didn't collaborate with my clients, I would simply be decorating spaces rather than designing sustainable, timeless interiors that provide an inviting and inspiring living environment," she explains.

The child of a military family, Lisa lived all over the United States and abroad before settling in Annapolis. This exposure to other

regions and countries informs her design preferences today. "My deep love of Annapolis and life on the Chesapeake Bay surfaces in fresh compositions, infused with timeless sophistication, often through global art, special finishes and accessories," she explains.

The opportunity to positively impact her clients' lives is her greatest business accomplishment. She recalls a call at 8:30 PM on a Friday from a client who exclaimed how much she loved her home and how working with Lisa had changed her life. "I'm in this business for phone calls like that!" Lisa says. "For the positive end result, for my ability to create livable luxury interiors for happy, healthy clients."
